AGAIN data set

1 Uncertain Feature Definitions

player_damaged: Damage received by the player
player_projectile_count: Number/intensity of player projectiles
player_projectile_distance: Distance from the player to player projectiles

bot_damaged: Damage received by enemies
bot_projectile_count: Number/intensity of enemy projectiles
bot_projectile_player_distance: Distance from enemy projectiles to the player

pick_ups_visible: Number of visible pickups
pick_up_player_distance: Distance to pickups

player_respawn: Player respawn event/intensity

bot_delta_rotation: Enemy rotation since previous frame (Racing)

bot_respawn: Enemy respawn event/intensity

player_healing: Healing state/intensity

bot_delta_rotation: Enemy rotation since previous frame (FPS)

player_has_collisions: Player has collision(s)
player_is_colliding_above: Collision above
player_is_colliding_below: Collision below
player_is_colliding_left: Collision on the left
player_is_colliding_right: Collision on the right

player_point_pickup: Point pickup event/intensity
player_power_pickup: Power-up pickup event/intensity
player_boost_pickup: Speed boost pickup event/intensity
player_slow_pickup: Slow-down pickup event/intensity
player_has_powerup: Player has a power-up

bot_has_collisions: Enemy has collision(s)
bot_is_colliding_above: Enemy collision above
bot_is_colliding_below: Enemy collision below
bot_is_colliding_left: Enemy collision on the left
bot_is_colliding_right: Enemy collision on the right

bot_charging: Enemy charging state/intensity

2 Likely Boolean / Binary Features

player_shooting: Player is shooting
bot_shooting: Enemy is shooting

player_death: Player death

player_reloading: Player is reloading
player_crouching: Player is crouching
player_sprinting: Player is sprinting

player_aim_at_enemy: Player is aiming at an enemy
player_aim_at_destructible: Player is aiming at a destructible object
player_tries_shoot_on_reload: Player attempts to shoot while reloading

bot_reloading: Enemy is reloading
bot_aim_at_player: Enemy is aiming at the player

player_is_falling: Player is falling
player_is_jumping: Player is jumping

bot_is_falling: Enemy is falling
bot_is_jumping: Enemy is jumping

3 Likely Well-defined Features

[output]arousal: Change in arousal

[general]time_passed: Elapsed time since the start of the game
[general]input_intensity: Number of key/button inputs
[general]input_diversity: Number of different input keys/buttons
[general]activity: Ratio of time with player input
[general]score: Score
[general]bot_count: Number of visible enemies
[general]bot_diversity: Number of different visible enemy types
[general]bot_movement: Enemy movement amount
[general]player_movement: Player movement amount
[general]object_intensity: Number of visible objects of interest
[general]object_diversity: Number of different object types
[general]event_intensity: Number of events [general]event_diversity: Number of different event types

key_press_count: Number of key/button inputs
idle_time: Ratio of time without input

player_score: Player score
player_delta_distance: Player movement since previous frame

bot_delta_distance: Enemy movement since previous frame
visible_bot_count: Number of visible enemies

player_kill_count: Number of enemies killed
player_speed_x: Player velocity (X)
player_speed_y: Player velocity (Y)
player_health: Player health
player_health_pickup: Number/intensity of health pickups

bot_speed_x: Enemy velocity (X)
bot_speed_y: Enemy velocity (Y)
bot_health: Average enemy health

player_is_grounded: Player is on the ground
bot_player_distance: Average distance to enemies
bot_is_grounded: Enemy is on the ground

player_delta_rotation: Player rotation since previous frame

player_standing: Player standing state
player_speed: Player speed
player_speed_boost: Speed boost state
player_is_mid_air: Player is airborne
player_is_looping: Player is inside a loop
player_is_crashing: Player is crashing
player_is_off_road: Player is off-road
player_gas_pedal: Accelerator input
player_steering: Steering input

player_lap: Current lap
player_distance_to_way_point: Distance to next waypoint

bot_standing: Enemy standing state
bot_score: Average enemy score
bot_speed: Average enemy speed
bot_speed_boost: Enemy speed boost state
bot_is_looping: Enemy is inside a loop
bot_is_off_road: Enemy is off-road
bot_is_crashing: Enemy is crashing
bot_gas_pedal: Enemy accelerator input
bot_steering: Enemy steering input
bot_lap: Average enemy lap
bot_distance_to_way_point: Enemy distance to waypoint

visible_jump_count: Number of visible jump pads
visible_speed_boost_count: Number of visible speed boosts
visible_obstacle_count: Number of visible obstacles
visible_loop_count: Number of visible loops

player_speed_z: Player velocity (Z)
reticle_delta_distance: Reticle movement distance

bot_speed_z: Enemy velocity (Z)

destructible_count: Number of destructible objects
objects_destroyed: Number of destroyed objects
